OCTOBER

The August Constitution of the Republic of Monday's morning contains the following announcement:

"Our hands have left us, our carriage is sick. After this issue our carriage will be published weekly. We have still sufficient force to enable us to put out a daily extra, will be issued as soon as the official report of the Board of Health is received."

This Messenger, The Bostoner, Come! says there is a manifest tendency on Brighton towards a general slide into the river for a general reason. The saving has been confined to certain localities, but now it's the pass round a creek, but now it's the pass

September 16th, 1854.

**WE**, the undersigned Subscribers published in the Jacksonville Republican, and other papers in the western States, for a reward of Three Hundred Dollars, for the apprehension of John R. Humphries who has lately been arrested in Kentucky, and brought back, and is now in the custody of the Sheriff of this County. We have learned to our surprise and

since regret, that it is reported by some persons that this John R. Humphries is the son of George W. Humphries, formerly of DeKalb county, but now of Benton County, Ala. This is a gross mistake and fabrication. John R. Humphries, for whom the reward was offered, is son of Charner Humphries, White Hall, near Atlanta. Fearing this mischievous report may have been gotten up for the purpose of injuring said George W. Humphries and family in a strange country, we feel bound in honor to say emphatically and positively that such reports are false, to all intents and purposes, and do state from a personal knowledge, that George W. Humphries stands high for respectability and moral worth, and is well worthy the confidence of any virtuous and good people; neither can there be ought said against a single member of his family. But all are highly respected.

plurities, (said Humphreys's son,) we do not unequivocally state that a more highly-minded, noble young man has not been raised in our State; his morals are perfectly good; his habits correct; and as a Physician, one of the most skillful, successful and popular physicians in all this country; and is at this time doing a heavy practice, in short, his character is pure and spotless, and a gentleman in every sense of the word.

We would further state that hundreds upon hundreds of our very best citizens would certify to the above facts if necessary.

particularly so, and the mother finding such to be the case, did all in her power to relieve the sufferer, but in vain, she became worse, the blood of the others was equally impure, and they all three were so bad at last, as to become quite an object of horror to their friends. The mother about eight weeks ago put them through a course of Holloway's Pills and Ointment, and strange yet true it is, that their blood became thoroughly purified and the scrofulous symptoms disappeared. They are now all three in excellent health, to the astonishment and delight of their affection-

ate parents.

## HAWAII

There are several water wheels in the valley, and the most important is the one at the *Provincia* mill, which is the largest and the most modern. It is situated on the Choccoloco creek, where they have recently purchased the water rights from the water power and mill formerly owned by Mr. Bagley, twelve miles North East of Tlaladega, on Choccoloco creek, where they have

procured all the machinery that can be profitably used in manufacturing *Cotton Gins* in the most complete and expeditious manner. They pledge themselves to have the

best material that can be purchased, and WARRANT their work in every respect. We will keep Gins on hand at all times and fill orders promptly.

All repairing done in good style and at moderate prices. One of

our Firm resides two miles North of Talladega, where he will attend on all public occasions to transact any business in their line.

**MURDER AT KINGSTON.**—On Friday evening last, the house of Mr. Reynolds was entered by some person with false keys, and chloroform administered to Mrs. Reynolds while in bed and asleep, from the effects of which she was supposed to have died, as she was found dead in bed in the morning. A doctor of Poughkeepsie is suspected of having committed the deed.

**HOG STORY.**—We heard a capital anecdote about hogs the other day. In Madison and other counties, acorns are very scarce. They board, however, in the county of Estill. Many hogs were driven there, which the Estill people considered an infringement on their rights. Concils were called to determine how to rid themselves of nuisance. Many plans were proposed, but finally, after a good deal of debate, one was adopted, which was that hogs have great ears. Accordingly the ears of a hog were procured, and a good hog was caught from one of the Estills. She was covered in the bear skin and then let loose. She immediately returned on the droves, but on the approach all the hogs took to flight, and by the way with the bear skin. It is stated that since this incident not a hog has crossed the confines of Estill county.

**THE LUNAR WORLD.**—Mr. Cramp-ton, in a little book entitled "The Lunar World," draws the following interesting picture of the appearance which the satellite would present to a visitor from the terrestrial globe:

"Choose this period of the last quarter, and direct your way to that dark shadowy spot marked N. in the map, and situated to the north-east portion of the lunar globe, it is the Mare Imbrium, or Sea of Showers, as it is called, though no water is to be found there, and no shower ever cools or moistens its barren surface. It is about seven hundred miles in extent every way. Let us cast our eyes around, and what do we see?—a boundless plain or desert, stretching away as far as the eye can reach on every side, save in one or two points, where a chain of lofty mountains can be perceived, whose brilliant, pointed summits, glittering in the sunbeams, just appear upon the distant horizon. The light that glares upon the plain is intense, and the heat of a tropical fierceness, for no cloud shelters us. By that light we may perceive, scattered over the plain, an infinite number of circular pits, of different sizes and depths, varying from a few yards to some hundreds in diameter, and sunk in the body or crust of the planet; some of them but a few feet and others to an unknown, immeasurable depth. A boy's sky is black, out of which the sun gleams like a red-hot ball, and the stars sparkle like diamonds, for no atmosphere like ours exists, to give by its refractive and reflective powers the shade to its landscape. The light and shades are intended upon its features deep and dark, or intensely bright; no softening away in the distance, no gentle and beautiful perspective, no lovely twilight, morning or evening, stealing over or away from the scene. All the outlines sharp, clear, appearing startlingly near even when really distant. No sound follows our footfall or is ever heard in that silent place; for there is no atmosphere to conduct its fresh breeze blows on its mountain tops, sighs through its burning deserts, rustles through its brilliant-green of forests or waves over meadows, the silence of death broods over its arid wastes and rocky shores against which no tides or billows break."

Citizens of the Union.— You have done me the honour as with one voice, from one end of the Union to the other, to stamp the character of my Ointment with your approbation. ASTONISHING CURE OF SORE LEGS AFTER NINE YEARS STANDING.

Copy of a Letter from Mr. W. J. Langley, of Huntsville, Yaden County, North Carolina, U. S., dated November 1st, 1853.

TO PROFESSOR HOLLOWAY.

Sir—It is not my wish to become notorious, neither is it this letter written for the mere sake of writing, but to say that your Ointment cured me of one of the most dreadful cutaneous diseases that flesh is heir to, and which was considered by all who knew me, to be entirely beyond the reach of medicine. For nine years I was afflicted with one of the most painful & troublesome sore legs that ever fell to the lot of man; and after trying every medicine I had ever heard of, I resigned in despair all hope of being cured; but a friend brought me a couple of large pots of your Ointment, which caused the sores on my legs to heal, and I entirely regained my health to my agreeable surprise and delight, and to the astonishment of my friends. (Signed) W. J. LANGLEY. AN EXTRAORDINARY CURE OF A BAD BREAST, WHEN NEARLY AT THE POINT OF DEATH.

Copy of a Letter from Mr. R. Durant, New Orleans, November 9th, 1853.

To Professor Holloway, N. Y.

Dear Sir—It is with heartfelt gratitude, I have to inform you that by the use of your Ointment and Pills, the life of my wife has been saved. For seven years she had a bad breast, with ten running wounds, (not of a cancerous nature). I was told that nothing could save her; she was then induced to use your Ointment and Pills, when in the short space of 3 months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your medicines from Messrs Wright & Co., of Chartres-street, New Orleans. I send this from "Hotel des Princes," Paris, although, I had written it at New Orleans, before we finally left, at that time, not knowing your address at New York. (Signed) R. DURANT. The Pills should be used conjointly with the Ointment in most of the following cases:—

This image shows a highly textured surface, likely the cover or endpaper of an old book. The texture is composed of a dense, irregular pattern of small, dark, and light-colored specks and fibers, creating a mottled appearance. The overall tone is dark, with some lighter areas where the texture is less dense. The image is framed by a thin black border.

Good wheat, corn, fodder, pork and bacon, will also be taken in payment for work, any of which we will be glad to furnish to our friends and customers. And we are fully satisfied that we can make it to their interest to purchase from us, for the following reasons:  
1st. Because we work none but the very best materials, by the best workmen, which secure neat, substantial and durable work.  
2nd. We are citizens of the country and expect to remain so, consequently are easier paid, and can give more indulgence than northern men.  
3rd. Because, should any of our work, by accident or mistake prove unsound, we are here to make good.  
4th. Because all the money paid to us is retained in the country, and paid out again to our own people, instead of being sent to the north to fatten already wealthy capitalists.
